XIOGUARD ESSENTIAL

XioGuard Essential offers fundamental cybersecurity protection tailored for small to medium-sized businesses. It provides essential security features to safeguard your digital assets and ensure business continuity.

Key Features:
- Email security to prevent malware, detect phishing, and protect sensitive information
- Workstation antivirus and anti-malware software
- Workstation Operating System patch management

Ideal For:
Small businesses or startups looking for foundational cybersecurity measures without a significant investment.

XIOGUARD PRO

XioGuard Pro enhances your cybersecurity posture with advanced threat detection, prevents user-targeting cyber threats, and protects your critical Office 365 data.

Key Features:
- Monthly vulnerability scanning, findings report, and internal and external (5 IP addresses) host recommendations.
- Office 365 backup (Mailboxes, Teams, OneDrive, & SharePoint)
- Phishing campaign to keep your user community vigilant

Ideal For:
Growing businesses that require heightened security measures to defend against evolving cyber threats.

XIOGUARD ELITE

XioGuard Elite offers comprehensive cybersecurity solutions designed for organizations with complex IT environments. It provides advanced threat intelligence and incident response capabilities to protect against sophisticated cyber-attacks.

Key Features:
- Mobile device management and endpoint protection
- Advanced threat hunting and security stack analysis via OpenXDR
- Firewall management, incident response, adds/moves/changes, and firmware updates
- Quarterly penetration testing for 10 external IP addresses

Ideal For:
Organizations operating in highly regulated industries that demand robust cybersecurity defenses and compliance adherence.

XIOGUARD ULTIMATE

XioGuard Ultimate represents the pinnacle of cybersecurity protection, offering a fully integrated suite of innovative technologies and expert services. It provides tailored solutions to address your organization's unique security challenges.

Key Features:
- Microsoft Copilot readiness assessment for confident AI adoption
- 24/7 Managed Detection & Response SOC (Security Operations Center)
- Monthly penetration testing for 20 external IP addresses

Ideal For:
Organizations seeking top-tier cybersecurity solutions with a focus on proactive threat detection, rapid response, and dynamic compliance tracking.
